

Providing Documents

DOCUMENTATION FOR SACAT APPLICATIONS

FOR GUARDIANSHIP, ADMINISTRATION, MENTAL HEALTH, ADVANCE CARE DIRECTIVES AND CONSENT TO MEDICAL TREATMENT APPLICATIONS

Providing all relevant documents helps your application to be processed as smoothly as possible.

During the online submission process, you have the option to upload supporting documentation to be attached to your application. Another option is to manually send us the documentation.

Please note that cases will not be listed until all mandatory documentation is received, either online or manually. If you don't have all relevant documents at the time of making your online submission, you can save the application and return later to upload the documentation.

All applications for guardianship and administration orders should be accompanied by a SACAT **Medical and Psychological Report Form** which can be found on our website;
<http://www.sacat.sa.gov.au/resources-updates/forms>

A medical practitioner or psychologist must complete this form. This is to ensure the tribunal member can be satisfied that a person has a mental incapacity before an order is made. A case cannot be heard, or a date set, until this report has been received.

The following file types are accepted, though please note that availability of these file types may

be restricted by your device – pdf, doc, docx, xls, xlsx, rtf, txt, tif, jpg, gif, bmp. The maximum file size is 10MB per document.

This information sheet explains what documents need to be provided within the various types of applications heard by the Community Stream of SACAT.
